ITS Quality policy

ITS Poland is a cloud technology company, a place for professional growth, development, innovation, creativity, self-expression, where knowledge and expertise are being used in the digital world. Our team is a forward-thinking and reliable software development vendor for global brands.

Our mission is to change the world for the better with our customers, paving the way for a technological future together.

We deliver high quality work on schedule within budget. Delivery builds trust with colleagues. Delivery is a result of all the best practices we put in place — good tools and framework, strong planning, time management, and teamwork. The entire company works as one to deliver.

We will continuously strive to delight our Customers and Partners with outstanding Quality of our services and openness in our cooperation.

In our endeavor to achieve this objective, we will:

- Closely cooperate with a Customer team
- Continually monitor and improve Quality Management System across whole software development lifecycle
- Continuously improve hard and soft skills of our Employees
- Encourage our Employees to work on their self-improvement and self-education; help them in this initiative
- Respect privacy of information shared with us by our valued Customers and Partners
- Be flexible and promptly adapt to constantly changing requirements and emerging challenges.

ITS Poland aims to achieve the stated goals by implementing a quality management system that meets not only the expectations of our customers, but also complies with the international best practice standard ISO 9001:2015.

President

Dmitry Yarmolich
